INTERNSHIP WORK REPORT

Supporting document to the Certificate of Internship · ID CRT-26-4MTUSL6C

Intern	**Niditi Pandire**
Role	**SDE Intern**
Internship period	**June 11, 2026 – August 5, 2026**
Project / team	**AI Team**
Date of issue	**10 October 2026**
Certificate ID	**CRT-26-4MTUSL6C**

SUMMARY OF WORK

In June and July 2026, they worked on the AI team to help build Aura—a smart AI system designed to understand a user's mood by analyzing both their words and the tone of their voice, and then reply thoughtfully.

KEY TASKS AND CONTRIBUTIONS

- Built a Smart System: Connected different AI models together so the system could listen to audio, convert speech to text, check the emotional tone, and create a helpful reply.
- Added Emotion Recognition: Set up AI tools to read emotional cues from written text and listen for tone of voice in speech.
- Connected AI Brains: Integrated tools like Gemini, Llama, and Mistral, and wrote clear instructions (prompts) so the AI replies matched the user's mood.
- Checked Speed & Performance: Tested the system timing to find slow spots (like voice processing taking about 7 seconds) to help improve speed later.
- Turned Code into Apps: Used FastAPI to turn their AI scripts into ready-to-use web tools

SKILLS AND TOOLS

Coding & Web: Python, FastAPI, Git, GitHub Audio & AI Libraries: Hugging Face, Torchaudio, Librosa, SoundFile AI Models: Gemini, Llama, + Focus Areas: Speech recognition, text analysis, prompt writing, and fixing code bugs

PERFORMANCE AND REMARKS

They showed strong practical skills in building AI setups, fixing code issues, and making different AI models work together smoothly. Their work helped turn a complex AI idea into a working, real-world prototype.

INTERN VERIFICATION

CONFIRMATION

This report accompanies the Certificate of Internship (ID CRT-26-4MTUSL6C) issued by Ayritech Business Solutions to Niditi Pandire on 10 October 2026. Ayritech Business Solutions confirms that the work described above was carried out during the internship.
